

FINISHERS MAP REPORT

DATE: June 19, 2003
TO: Finishers Partner Organization
RE: Finishers MAP Report (Ministry Advancement Profile)

Enclosed is a MAP Report completed by a Finisher candidate who wants to explore a future ministry service opportunity with your organization. This MAP Report represents an aptitude assessment for the purpose of identifying best-fit ministry organizations and job positions.

The information contained should save you and your ministry team hours of screening and correspondence. We encourage you to begin communication with this Finisher candidate on an exploration basis.

If you need assistance in interpreting or understanding this report, please contact the IDAK Group: finishers@IDAKgroup.com.

In addition to the report contents, the Finishers candidate wishes to include the following personal information for your organization.

Finisher Candidate's Name: Dr. Carl Jones

Proposed Short-Term Project: A mission's research project from 2-6 months in duration
Proposed Long-Term Goal: A full-time mission's research position
Contact information: 1234 B Street
Anytown, State 00300
cjsample@aol.com
(806) 662-1794

I have over 30 years of productive work experience. I have been prayerfully seeking an opportunity to serve God in missions. I recently completed the perspectives course for world missions which opened my eyes to missions in a new way. Over the past three years I have participated in several cross-cultural, short-term missions projects to Mexico, Estonia, Ghana and Alaska through my church.

I would like to participate in a missions research project which hopefully would be of help to your organization, while at the same time allows us to get better acquainted. As God would lead, my longer range goal would be to transition from my present job to a research related missions position. I received the name of your mission agency through the Finishers Project.

I would like to explore a way to serve God and your mission by doing a missions research project which, hopefully will be of help to your team. I do not expect to research any topic which is in my technical field of fiber optics, the more unique the better as long as it focuses on missions in some way. I suggest a project which would be approximately 2-6 months in duration. I propose to contribute my own time, expenses and equipment.

To further explore this proposal, would you forward this letter and attached MAP Report to the appropriate department director in your organization.

I pray that God will lead me and your mission as we explore this proposal together. Please notify me what next step to take.

Sincerely,

Carl Jones, Ph.D.

P.S. I will be attending the ACMC/Finishers Conference in Atlanta this June 19-21 and hope to have an opportunity to meet with a representative of your mission.

How the Finisher candidate aptitudes were evaluated:

There are several levels of IDAK aptitude assessment services from which the candidate can choose.

1. Aptitudes were tested by an IDAK certified counselor's interviews along with computer scored assessment services. This is the highest and best level of aptitude assessment offered by IDAK.
2. The aptitudes defined in the report were manually entered by the candidate onto the Finishers Project website, which formatted the information into a report document. The contents of the report may reflect some discretion by the candidate. Neither the Finishers Project nor the IDAK Group has reviewed this report for accuracy or validity.
3. This report does not in any way represent an endorsement on the part of the Finishers Project, its staff, the IDAK Group, or its staff.
